**Cc:** Moriarty, Thomas; Anderson, Neil  
**Subject:** RE: for Monsanto: label change request for Reg num 524-523

Hi James,

It is relatively easy to voluntarily cancel a product. Industry usually submits a letter to us on company letterhead stating that they would like to voluntarily cancel a certain product. Please include the following information in your letter:

- 1) Registration number and name of product
- 2) Whether you want to waive the 180-day comment period for the federal register notice (if you do this, the public comment period only lasts 30 days)
- 3) Any requests for the disposition of existing stocks—in your case, since this product was never commercialized and no existing stocks exist, you can note that no existing stocks provision is needed

We would then publish a notice in the federal register of receipt of voluntary cancellation request, take comment, and if there are no comments, then we issue a final cancellation order.

Let me know if you have any questions.

Thanks,

**Subject:** for Monsanto: label change request for Reg num 524-523

Hello Khue,

Sorry this took longer than I anticipated.

I have checked with our commercial and technology teams and a decision was made to cancel the registration for 524-523 without prejudice to future submissions. This product (formulation) has never been commercialized and there are no immediate plans to do so in the near future. We will however continue R&D work on newer formulations.

Kindly advise us on the process for initiating registration cancellation.

Thanks

James

**Subject:** for Monsanto: label change request for Reg num 524-523

Hi Dan,

We sent this request a couple months ago. We did not hear back. Monsanto is required to make these changes on its only quizalofop label. Please send to us a revised label as soon as possible.

Thanks,

Khue Nguyen

**Subject:** label change request for Reg num 524-523

Hi Dan,

I hope you are well. Please see the attached correspondence concerning quizalofop. Monsanto has one quizalofop label that is co-formulated with glyphosate: Reg num 524-523. The Agency recently issued the Interim Registration Review Decision (also attached) for quizalofop and required minor labeling changes on all end-use products as part of risk mitigation. The attached memo concerns those minor labeling changes.

Please confirm receipt of both documents.

Thanks,

Khue Nguyen
